size	1 water gun/4 water gun nozzles/30M high-pressure hose/2m inlet pipe/2 sewer nozzles	High Pressure Gun with 3m Suction Hose with Filter, Hose Reel

TGQ2026

The TGQ2026 mobile high-pressure injector is equipped with a control engine to ensure optimal cleaning of small drainage ditches and sewers up to 200mm. This machine is particularly suitable for spraying and cleaning house connections, roof drains, grease clogged sewers, and industrial sewers. It also cleans street furniture and terraces very effectively.

TGQ2026 can be directly connected to the water supply system, eliminating the need for a separate water tank. TGQ25022 is equipped with two nozzles and a high-pressure gun with a spray gun
